Title: RecipeHub Team Name: Jay & Aman

Team Members:

- 1. Aman Prajapati (Frontend)
- 2. Venkata Jayanth Pasam (Backend)

Overview

Our project is a recipe-sharing platform where users can post, search, and interact with recipes. The platform allows users to log in, share their own recipes, comment, like, and engage with others' posts. It aims to foster a vibrant community of food lovers by providing a space where people can discover new recipes, and share their love for cooking.

Technologies Used

Front End: HTML, Back End: Python,

CSS, Flask,

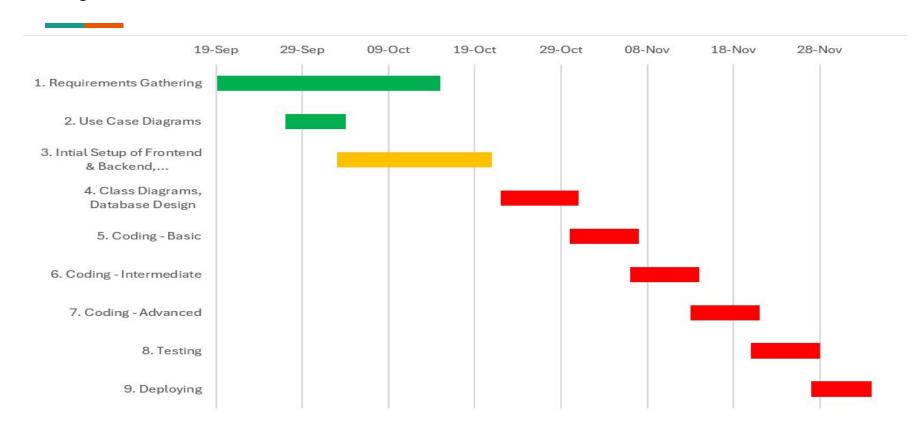

JavaScript, MongoDB

React REST API's

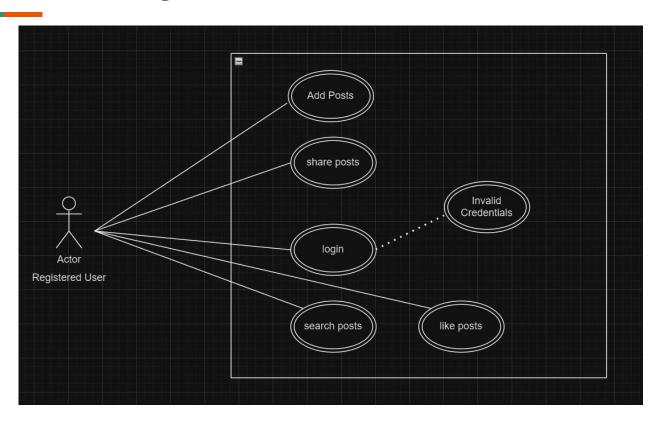

Tools: Visual Studio Code(Development),

GitHub(Version Control & Collaboration)

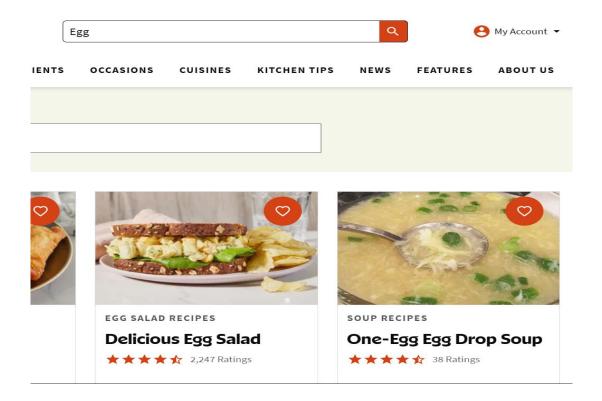

Project Timeline (Gantt Chart) / Iterative & Incremental

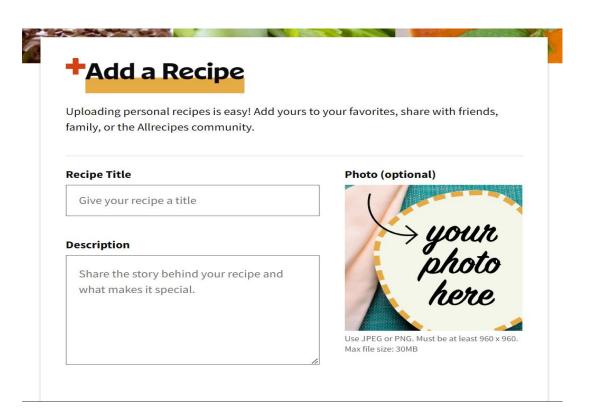

Use Case Diagram
